HomeShield Storm and Roof Endorsement (Form HS-E12)

HomeShield Insurance Company | Edition 03/2026

This endorsement changes your HomeShield Homeowners Policy. Please keep it with your policy.

SECTION 1 ABOUT THIS ENDORSEMENT

1.1 How this endorsement works

This endorsement changes the HomeShield Homeowners Policy (Form HS-100). It applies when it is listed in your Declarations. Where it conflicts with the policy form, this endorsement applies. All other terms stay the same.

SECTION 2 HAIL AND WINDSTORM TERMS

2.1 Separate deductible for hail and windstorm

A separate deductible of 1% of the dwelling limit applies to each loss caused by hail or windstorm. This deductible replaces the standard deductible for those losses.

2.2 Roof coverings older than 15 years

Loss to roof coverings caused by hail or windstorm is settled on an actual cash value basis if the roof covering was more than 15 years old on the date of loss. We pay the cost to repair or replace the roof covering less a deduction for age and condition.

2.3 What counts as physical damage to a roof

Physical damage from hail includes a fractured or bruised shingle mat, a puncture, and loss of granules that exposes the mat. Physical damage from windstorm includes shingles that are lifted, creased, torn or missing. Damage of this kind is covered when it affects the ability of the roof to keep out rain.

2.4 Cosmetic damage

Cosmetic damage to metal roof panels, gutters and flashing, meaning denting or surface marring that does not let rain in and does not shorten the life of the part, is not covered.

2.5 Checking the date and place of a storm

To support a claim for hail or windstorm we compare the date and place of loss with independent weather data. If the weather data does not show a hail or windstorm event near the dwelling on the date of loss, we refer the claim for further review before we decide it.

2.6 Temporary repairs

After a loss caused by hail or windstorm, we cover the reasonable cost of temporary repairs, such as covering a damaged roof with a tarpaulin, up to $2,500. Keep your receipts and photographs of the repair.

2.7 Roof age statement

You must tell us the approximate age of the roof coverings when you apply for this endorsement. An incorrect statement may affect how we settle a loss caused by hail or windstorm.

SECTION 3 CLAIMS FOR STORM LOSS

3.1 Information we need

For a claim for hail or windstorm damage, please tell us the date the storm happened and the address where the damage occurred. Add photographs of the damage to the roof and to any other part of the dwelling that was affected.
